

Dear Parents of

Help your child develop a deeper understanding of math.

Our educators in the math department are using TI-84 Plus C Silver Edition graphing handhelds in a range of subjects:

With a TI-84 Plus C Silver Edition graphing calculator for school and home, your son or daughter has a learning tool to use year after year and into college.

In fact, research shows that the use of a graphing calculator can help students improve their test scores. Students reap the most academic benefits when they have their own TI graphing calculator for class work and homework. You can learn more about such studies at education.ti.com/research.

TI-84 Plus C Silver Edition graphing calculators are permitted on the SAT*, ACT*, PSAT/NMSQT*, AP*, Praxis™ and IB® exams, as well as many state tests. For details, visit education.ti.com/go/testprep.

Enhanced graphing and computer features for the TI-84 Plus C Silver Edition graphing calculator:

- » High-resolution, full-color backlit display
- » TI Rechargeable Battery
- » Familiar TI-84 Plus functionality
- » Ability to import and use images**
- » Updated MathPrint™ feature
