UPDATED AFTER SCHOOL CAR RIDER LINE UP PROCEDURE

Please share this information with any friends or family members who might pick your car riders up after school.

We are working with our local fire and police stations to prevent cars from lining up on the road in front of BGS. To do so we need everyone's cooperation and patience when picking children up after school.

Pull into the front parking lot from 9000W Rd. You will turn left and wrap all the way around the parking lot. Start lining up in front of the building starting where the two yellow lines are painted on the ground.

Two lines will form all the way around the inside of our parking lot to prevent any cars waiting on the road. Staff members will walk students out to cars and then cars will be released once all children are in vehicles.

Thank you again, for your patience and understanding as get everyone used to this new direction of traffic after school.
