Career Exploration Remote Learning Lesson Plan

When: Beginning April 30, 2020

Where: [KACC Website](#)

Purpose: Remote Learning Opportunity for Students in Grades 6 through 12

Description: Through a consortium with KACC, Manteno and Kankakee Chambers of Commerce, Economic Development Council of Kankakee and Kankakee Visitors and Convention Center, a remote learning assignment has been developed for all our area schools.

This remote learning opportunity had all students in mind, not just Career Center students.

Please share this opportunity with all your faculty and students. We will appreciate you sharing on your social media outlets so we can reach as many students as possible.

Students who complete the remote learning experience between April 30 and May 8 will be entered into a special raffle drawing.

As Director of the Kankakee Area Regional Vocational Education System and Kankakee Area Career Center, I thank you for being a partner in this process.

Matthew A. Kelley
